Please find below and/or attached an Office communication concerning this application or proceeding.

W

Advisory Action Before the Filing of an Appeal Brief	Application No. 10/825,793	Applicant(s) LEARNED, ADDISON W.	
	Examiner Gary K. Graham	Art Unit 1744	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 27 July 2006 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) The period for reply expires _____ months from the mailing date of the final rejection.
- b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

- 3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
 - (a) They raise new issues that would require further consideration and/or search (see NOTE below);
 - (b) They raise the issue of new matter (see NOTE below);
 - (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
 - (d) They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

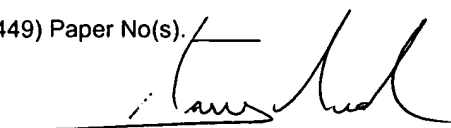

- 4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
- 5. Applicant's reply has overcome the following rejection(s): _____.
- 6. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
- 7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: _____.
Claim(s) objected to: _____.
Claim(s) rejected: _____.
Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

- 8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
- 9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
- 10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

- 11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See Continuation Sheet.
- 12. Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). _____
- 13. Other: _____.

 Gary K. Graham
 Primary Examiner
 Art Unit: 1744

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's discussion of filament or tuft retention (straight line or U shaped) is noted but not persuasive to define over Lay. It does not appear that Lay discusses a U shaped forming of the filaments for retention. Lay appears to show a straight line retention (fig.2). Further, applicant does not appear to discuss filament retention in his specification. It is not clear how applicant can define over Lay by tuft retention since applicant does not discuss or show any particular tuft retention. In order to introduce structure or structural relationships into the claims (which would be needed to define over Lay), it must be clearly disclosed. In any event, Lay does disclose the argued straight line retention. Applicant's discussion of a particular handle is noted but not persuasive to define over Lay. Applicant does not appear to discuss any particular handle in his written description and has not identified any handle in the drawings. It is pointed out that Lay discloses and shows a handle (8) that will accept a "hand shake" grip, at least as far as understood. Applicant's statement that Lay could probably not accomplish painting is noted but not persuasive. Whether it would be desirable to use the device of Lay to paint does not impact whether or not it is possible. Lay could be used to paint. Nothing would prevent such. Further, it is noted that the claim sets forth a "coating" brush, not a paint brush. Clearly the brush of Lay could be used to coat driveways or a roof with sealer or the like. Applicant's discussion of narrow and thick ends of the bristles is noted but not persuasive. The claim does not include any reference to thickness while the specification only nominally mentions thickness. Further, reducing bristle thickness at an end distal from a securing base is known either by general tapering or by splitting of the bristle end.

Applicant's request for assistance is noted, however, due to Applicant's basic disclosure and the available art, the Examiner is not able to provide a claim suggestion at this time. All of the structural features disclosed appear to be known.
